## **GENERAL RECOMMENDATIONS**

### **Human Resources - Training Local Teams**

- Intensive Sales Training: Implement programs to strengthen your teams' skills with tailored sales techniques.
- Management Support: Provide guidance to underperforming sales reps to improve their performance.
- Optimizing Top Sales: Reduce their low-performing client portfolio to allocate more time and quality resources to high-value clients.

### **Sales Optimization & Targeted Marketing Campaigns**

- Tokyo: Launch campaigns to increase customer acquisition — welcome offers and partnerships with local high-end brands.
- Boston: Develop promotions targeting price-sensitive prospects — discounts, bundled products, and loyalty programs.
- Boosting Revenue: Focus resources on high-performing territories and offices to maximize average basket size and overall revenue.
- Strategic Marketing: Prioritize best-sellers and streamline underperforming products.
- North America & Asia-Pacific: Revitalize declining markets with tailored campaigns and reassess offers.
- Customer Feedback: Conduct satisfaction surveys to identify barriers and improvement opportunities for increased sales.

### **Logistics - Eliminating Dead Stock**

- Japan, Singapore, Sweden: Due to delivery challenges, recommend removing TRAINS and SHIPS categories.
- Seasonal Marketing Strategy: Align marketing efforts with key events in organizing countries.
- Stock Management: Ensure key product categories are well-stocked at the end of the season to anticipate strong Q4 growth.

### **Finance - Account Management Strategy**

- Stock Adjustment: Align inventory with seasonal trends and growth forecasts.
- Data-Driven Insights: Identify complex patterns and correlations for a strategic market advantage.
